

Disaster Preparedness and Emergency Survival: Quick, Easy Preparations for Family Safety

Filesize: 3.36 MB

Reviews

This pdf is fantastic. It typically is not going to price too much. You will not truly feel monotony at any time of your own time (that's what catalogs are for about if you request me).
(Leslie Reinger)

DISASTER PREPAREDNESS AND EMERGENCY SURVIVAL: QUICK, EASY PREPARATIONS FOR FAMILY SAFETY

[DOWNLOAD PDF](#)

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 292 pages. Dimensions: 9.0in. x 6.0in. x 0.7in. A weather disaster or earthquake hits a city a hundred miles away, and suddenly, your life is changed. Grocery store shelves are quickly emptied. Gasoline lines are longer. If they have electricity for the pumps, prices go up, but ATMs aren't working either. If it was a heavy winter ice storm or blizzard, electric lines can be down for a week. Water purity and supply may be threatened. Natural gas lines may have been shut off to prevent fires. Can you get through it without help? Can you help anyone else? In this book, you will find: - What disappears first from Supermarkets - Best barter items and supplies - Twenty helpful tips from convicted burglars who know their business - Looters Schmooters! How to protect your home and family - Affordable ways to be ready without becoming a camo-clad survivalist. - And, the bonus novel, Neighbors, brings to life the value of having certain things available when shortages occur. Weather problems caused by natural, predictable, even routine storms show us that we live on the very edge of survival. It doesn't take much to upset our lives, because we have such easy access to anything we need to be comfortable and we take it for granted. But, it isn't granted. It is a luxury. Our running water is purified for us. Our food is trucked many miles to nearby supermarkets. Gasoline is delivered to local stations with pumps run by electricity. When supply lines are interrupted, what do you do? At that point, it's too late to get ready. If your electricity goes off and your gas lines are broken, and it's winter, how do you cook your food and warm your home? How do you get food to cook? If you can't buy gasoline, how do...
